Right now we are at tipping point. The 2.0 lifestyle of modern day society is undergoing a cascading failure. Don't panic, this is a good thing. 2.0 needs to die. It has served its purpose and it's time for humanity to move onto something better. The book details the history of human sexual relationships in the time before property or marriage even existed, the evolution to our modern day 2.0 lifestyle and how and why we created the problems that make modern day sexual relationships so hard. Far more importantly, it details a way forward to a 3.0 world. A world of mutual understanding between men and women and a return to nature.
