The definitive guide to investing in today's market!

Especially after the wild ride that began in the fall of 2008, individual stock investing has become far more challenging. Think of a golf swing - hit it right and it goes long and straight, hit it wrong and you'll end up far off in the weeds. But - like much else in life - golf swings become habits when done right. Investing should be no different. What works should become habit, and each and every investor should develop his or her own set of habits for success. **Peter Sander** in this book reveals a set of twenty five habits that lie behind his own personal investing success, habits loyal to the value investing principles of Benjamin Graham, Warren Buffett and others. These 25 habits - or your own version thereof - will help you hit your investments long and straight.
