## **A Broadcast Engineering Tutorial for Non-Engineers** David Wilson

Even people without engineering backgrounds need to have a general understanding of broadcast engineering issues. This is true for broadcast managers, lawyers, financial analysts and engineering trainees who want to develop a knowledge base to launch a broadcast engineering career. This book is written for all of these people. It describes the engineering aspects of all broadcast facilities, including Digital Television, in an easily understandable, non-technical fashion. The information contained in this book will help you further your understanding of broadcast engineering, and enhance your ability to perform the broadcast engineering-related functions of your job.
