COAST GUARD HELICOPTER RESCUE SWIMMER MANUAL

U.S. Coast Guard

COAST GUARD HELICOPTER RESCUE SWIMMER MANUAL U.S. Coast Guard HELICOPTER RESCUE SWIMMER POLICIES.

Mission of the Coast Guard Helicopter Rescue Swimmer Program. The primary mission of the helicopter rescue swimmer, hereafter referred to as rescue swimmer (RS), is to provide Rotary Wing (RW) stations with the capability of deploying a properly trained and conditioned person to assist persons in distress in the maritime environment. The stated primary mission should not be construed as a restriction on other operational requirements, when determined appropriate by the operational commander, for deployment of the RS.

Helicopter Rescue Swimmer Capabilities. The RS must have the flexibility, strength, endurance, and equipment to function for 30 minutes in heavy seas, and the skills to provide basic pre-hospital life support for the rescued individual(s). RS Emergency Medical Technician (EMT) skills may also be used during other Search and Rescue (SAR) cases in which swimming ability is not required.

Concept of Operations.

Conditions on scene will determine the need to use the RS. The crew shall consider the following:

- (1) Sea state
- (2) Water/air temperature
- (3) Predatory marine life
- (4) Other environmental factors
- (5) Ability of the RS to safely complete the mission

The decision to deploy the RS is initiated by the pilot in command, but the RS has the authority to decline deployment if the RS assesses the situation to be beyond their capability.

Helicopter Rescue Swimmer Operational Procedures and Equipment. The following manuals are used for RS operational procedures and equipment references:

The helicopter flight manuals contain the pilot and flight mechanic (FM) normal and emergency procedures for RS operations.

This manual contains RS procedures, training and physical standards, and lists the authorized equipment for RS operations.

The Aviation Life Support Systems Manual, COMDTINST M13520.1 (series), provides authorized RS equipment descriptions and maintenance procedures.

Helicopter Rescue Swimmer Operational Deployment Restriction. Helicopter rescue swimmers are not permitted to act as cutter swimmers, nor are cutter swimmers permitted to deploy from helicopters.

From reader reviews:

Tanisha Goss:

What do you in relation to book? It is not important with you? Or just adding material when you need something to explain what your own problem? How about your extra time? Or are you busy man or woman? If you don't have spare time to complete others business, it is make one feel bored faster. And you have spare time? What did you do? All people has many questions above. They have to answer that question since just their can do this. It said that about publication. Book is familiar in each person. Yes, it is suitable. Because start from on jardín de infancia until university need this specific COAST GUARD HELICOPTER RESCUE SWIMMER MANUAL to read.

James Smith:

In this 21st one hundred year, people become competitive in every way. By being competitive today, people have do something to make these people survives, being in the middle of often the crowded place and notice simply by surrounding. One thing that oftentimes many people have underestimated it for a while is reading. That's why, by reading a reserve your ability to survive improve then having chance to endure than other is high. For yourself who want to start reading any book, we give you that COAST GUARD HELICOPTER RESCUE SWIMMER MANUAL book as basic and daily reading book. Why, because this book is usually more than just a book.

Emily Meredith:

Are you kind of hectic person, only have 10 as well as 15 minute in your moment to upgrading your mind skill or thinking skill even analytical thinking? Then you have problem with the book compared to can satisfy your limited time to read it because this time you only find publication that need more time to be learn. COAST GUARD HELICOPTER RESCUE SWIMMER MANUAL can be your answer given it can be read by you who have those short extra time problems.

Kenneth Sigler:

As a student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that reading is not important, boring as well as can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this COAST GUARD HELICOPTER RESCUE SWIMMER MANUAL can make you sense more interested to read.
