Based on actual events, OPEN SOURCE is a geopolitical thriller that follows Casey Shenk, a Savannah, Georgia, vending route driver with an insatiable curiosity, as he uncovers a black-market arms deal-gone-bad and the truth behind a high-level plot to shape world politics. Casey draws his evidence from open sources-- by reading beyond the headlines. When his theorizing catches the attention of the wrong people and anonymous threats turn deadly, Casey looks to Susan Williams, an intelligent, but insecure, analyst for the New York-based consulting firm Intelligence Watch Group for help. The two soon find themselves in the crosshairs and fighting to save their own lives, while preventing an even greater injustice that could affect the balance of power in the Middle East and plunge the world headlong into the next Great War.
