James Legge

The Analects of Confucius: with a translation, critical and exegetical notes, prolegomena, and copious indexes James Legge

Notable not only for its comprehensiveness but also for its inclusion of the Chinese pictograms, this *Analects* of the greatest philosopher of Chinese history is a must-own volume for any student of Confucius (551BC-479 BC). From the disposition of a land's rulers to the value of prayer, the thoughts of Confucius have powerfully shaped the moral life and political structures of Asian nations, and influenced the direction of the Western world as well. Here, Legge offers an enlightening introduction to the *Analects,* copious notes that place the sayings in cultural context, and much more assistance for the lay reader in understanding the depth of Confucius' wisdom.
