Medical Ethics: Accounts of Ground-Breaking Cases Gregory Pence

A Doody's Core Title for 2015.

Gregory Pence helped found the Bioethics field and has published in this area for forty years. In this text his single, authorial voice integrates descriptions of some of the most famous bioethics cases and their issues. The text is the only one that follows cases over decades to tell readers what did, and often, what did not, happen. This new edition retains in-depth discussion of famous cases, while providing updated, detailed analysis of newly raised issues.

Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.
