Sperm Competition in Birds: Evolutionary Causes and Consequences

Tim R. Birkhead, Aage R. Moller

Sperm Competition in Birds: Evolutionary Causes and Consequences Tim R. Birkhead, Aage R. Moller
Sperm competition is a central part of sexual selection and will therefore be of interest to all behavioral ecologists since the topics discussed here include many that are applicable to other animal groups. The text is supported by numerous photographs, diagrams, tables, and outstanding illustrations by David Quinn.

Sperm Competition in Birds address the following topics:

Both functional and causal aspects of the subject

The importance of sperm competition in different avian mating systems

The relationship between sperm competition and male and female reproductive anatomy and physiology, copulation patterns, and paternity guards

The costs and benefits of copulating with multiple partners for both males and females

The relationship between multiple mating and paternity, and the far-reaching evolutionary consequences of sperm competition
