Emotional intelligence: A synthesis of form and feeling

First applied to the poems of Stéphane Mallarmé and Paul Verlaine in 1886, the term “symbolist” was soon applied to the visual arts where a realistic depiction of the natural world gave way to **imaginary dream scenes of psychological, sexual, and mystical content**.

Symbolism was a broad international phenomenon but particularly present in France, where painters such as Gustave Moreau and Odilon Redon turned their back on realism, naturalism, and impressionism to populate their canvases with **esoteric, often erotic, visions**. In place of Monet's light-suffused landscapes or the frank working class subjects of Courbet, the Symbolists turned to figures from **literature, the Bible, and Greek mythology** to express experiences of **love, fear, anguish, death, sexual awakening, and unrequited desire**.

With featured work from Edward Burne-Jones, Puvis de Chavannes, Gustav Klimt, James Abbot McNeill Whistler, Gustave Moreau, Odilon Redon and many more, this book introduces Symbolism's great reach, intensity, and influence.
