The History of Classical Music, The History of Opera Richard Fawkes

From Gregorian Chant to Henryk Gorecki, the first living classical composer to get into the pop album charts, here is the fascinating story of over a thousand years of Western classical music and the composers who have sought to express in music the deepest of human feelings and emotions. Polyphony, sonata form, serial music?many musical expressions are also explained?with the text illustrated by performances from some of the most highly praised recordings of recent years. Since its origins in the sixteenth century, opera has been an extravagant, costly affair, arousing great passions. It has also produced some of the most sublime works of art, from Monteverdi to Wagner. Richard Fawkes traces the history of opera up to the present day, including a history of operetta.
