The nations of the world grew suspicious of a rumor that spies were being sent around to steal information from rival nations, which led to heated conflicts amongst each other. Others took the opportunity to further arise aggression, in an attempt to fuel the fire of war, and that's just what had happened. Germany joined many others and declared war on America and its allies in the year of 2019. There was no turning back. The war reduced most of the planet to rubble and shattered societies around the globe. Everything fell. Entire nations were wiped out. War continued until there were too few to fight it, and any survivors were left for dead, desperately trying to make a home in the broken world. Follow Kyle Thompson, a young adult at 18, as he meets friends and enemies, and see his struggles in the destruction he grew up in. Embark on his journey to find his parents and start a normal life, only to be crossed by a massive organization, The New Order, a terrifyingly large group of pro-government advocates who will stop at nothing to rebirth the US government, and take control over not only the North American continent, but the world itself.
