Genesys Corp calls it research. When Echo Branson is drawn to the laboratory by a young man who escaped its clutches, she finds horrors beyond imagining. Paranormals collected, analyzed and subjected to experiments—it must be destroyed.

With friends Danica and Bailey, Echo is ready for the ultimate confrontation, but it's not humans but other paranormals they find they must battle. With a cadre of normals as their only back-up, they risk everything they have. But when facing supernaturals like themselves, everything may not be nearly enough.

The third in the electrifying Echo Branson series finds unlikely allies and devastating enemies as Linda Kay Silva continues to explore the meaning of "normal."
