The Adam-God Revelation (Journal of References Book 1) Dennis Doddridge

And you were told it was only a theory? Learn what was really taught.

The Adam-God doctrine, first clearly declared by Brigham Young, met with stiff opposition by both Saint and sinner. Eventually in the 1860s, he significantly retreated from his profounder teachings, to teaching the basic understandings of the Gospel. But then in the 1870s President Young again publicly revived the higher concepts of his revelation, as he declared it was (see chapter 116:5 for example).

This book has 508 pages, with 182 chapters, each chapter a reference from a source of reliable texts. Each chapter has been further divided into verses, in order that the student or reader may cross reference his studies. The latter part of the book is divided into three approaches or theories that are supported today, for consideration. Also included in the book: a map of the universe gleaned from the Book of Abraham.

This book strives to be objective by citing excerpts from Church leaders regardless of their positions on this subject. The Adam-God doctrine is not simply cited here alone, but it is seated into other related teachings of the day: decomposition, polygamy, plurality of gods, and so on. In this manner, it is hoped that the reader will appreciate the Adam-God teachings as part of a greater vision of eternity by an extraordinary man of God, and not an aberrant misgiving of a prophet gone awry.

The Adam-God Revelation is the first of at least two volumes in a set called the Journal of References. (The second volume planned will be on a related topic regarding Eternity.)
