J. van Benthem

Language in Action, Volume 130: Categories, Lambdas and Dynamic Logic (Studies in Logic and the Foundations of Mathematics) J. van Benthem

This monograph began life as a series of papers documenting five years of research into the logical foundations of Categorical Grammar, a grammatical paradigm which has close analogies with Lambda Calculus and Type Theory. The technical theory presented here stems from the interface between Logic and Linguistics and, in particular, the theory of generalized quantification. A categorical framework with lambda calculus-oriented semantics is a convenient vehicle for generalizing semantic insights (obtained in various corners of natural language) into one coherent theory.

The book aims to demonstrate to fellow logicians that the resulting applied lambda calculus has intrinsic logical interest. In the final analysis, the idea is not just to 'break the syntactic code' of natural languages but to understand the cognitive functioning of the human mind.

From reader reviews:

Eric Hough:

Book will be written, printed, or outlined for everything. You can know everything you want by a reserve. Book has a different type. As it is known to us that book is important point to bring us around the world. Adjacent to that you can your reading skill was fluently. A publication Language in Action, Volume 130: Categories, Lambdas and Dynamic Logic (Studies in Logic and the Foundations of Mathematics) will make you to become smarter. You can feel considerably more confidence if you can know about anything. But some of you think that open or reading the book make you bored. It is not make you fun. Why they might be thought like that? Have you searching for best book or acceptable book with you?

Jamey Ainsworth:

Reading a book to get new life style in this yr; every people loves to go through a book. When you go through a book you can get a lots of benefit. When you read books, you can improve your knowledge, simply because book has a lot of information into it. The information that you will get depend on what types of book that you have read. If you wish to get information about your study, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, such us novel, comics, and soon. The Language in Action, Volume 130: Categories, Lambdas and Dynamic Logic (Studies in Logic and the Foundations of Mathematics) provide you with new experience in examining a book.

Lyle Morales:

Many people spending their time by playing outside with friends, fun activity with family or just watching TV all day every day. You can have new activity to spend your whole day by looking at a book. Ugh, do you consider reading a book can actually hard because you have to use the book everywhere? It ok you can have the e-book, delivering everywhere you want in your Mobile phone. Like Language in Action, Volume 130: Categories, Lambdas and Dynamic Logic (Studies in Logic and the Foundations of Mathematics) which is obtaining the e-book version. So , try out this book? Let's notice.

Connie Nixon:

Within this era which is the greater man or who has ability to do something more are more treasured than other. Do you want to become considered one of it? It is just simple solution to have that. What you have to do is just spending your time very little but quite enough to get a look at some books. Among the books in the top record in your reading list is usually Language in Action, Volume 130: Categories, Lambdas and Dynamic Logic (Studies in Logic and the Foundations of Mathematics). This book that is certainly qualified as The Hungry Hills can get you closer in becoming precious person. By looking way up and review this book you can get many advantages.
