Out of This World: Thinking Fourth-Dimensionally Neville

2010 Reprint of 1949 Edition. This title shows the same intensity of thought and conviction which had made Neville famous amongst progressive thinkers. In this volume we see not only a profound religious feeling, but also a sense of the dignity and responsibility of human life. Our own feeling about the results of his experiments as a whole is that they are not just an addition to our existing knowledge, but require a revolution in our whole way of thinking about the world.
