The Journal of His First Voyage to America (Classic Reprint) Christopher Columbus

The so-called Journal of Columbus is one of those bare, spare, essential documents that form the skeleton of the corpus of history. It is a simple sailor's record, but like the staff of Columbus's patron saint it has grown with time into a palm-tree, covered with fruits and foliage. The narrative is an abstract of the original journal (made by the Admiral's companion Las Casas.) It is as direct and outwardly severe as such a work would necessarily be; and yet from this seed have sprung histories, biographies, novels, plays and poems innumerable. Naturally, for no other voyage has formed so large a link in the chain of human cause and effect. But aside from this the Journal is intrinsically dramatic. It requires a little imagination to penetrate behind the diarist's mask of reserve and relive these long days of apprehension and bewilderment and the days of intoxication that followed them.
