## **Advances in Knowledge Discovery and Data Mining: 8th Pacific-Asia Conference, PAKDD 2004, Sydney, Australia, May 26-28, 2004, Proceedings (Lecture ... / Lecture Notes in Artificial Intelligence)**

The Pacific-Asia Conference on Knowledge Discovery and Data Mining (PAKDD) has been held every year since 1997. This year, the eighth in the series (PAKDD 2004) was held at Carlton Crest Hotel, Sydney, Australia, 26–28 May 2004. PAKDD is a leading international conference in the area of data mining. It provides an international forum for researchers and industry practitioners to share their new ideas, original research results and practical development experiences from all KDD-related areas including data mining, data warehousing, machine learning, databases, statistics, knowledge acquisition and automatic scientific discovery, data visualization, causal induction, and knowledge-based systems. The selection process this year was extremely competitive. We received 238 research papers from 23 countries, which is the highest in the history of PAKDD, and reflects the recognition of and interest in this conference. Each submitted research paper was reviewed by three members of the program committee. Following this independent review, there were discussions among the reviewers, and when necessary, additional reviews from other experts were requested. A total of 50 papers were selected as full papers (21%), and another 31 were selected as short papers (13%), yielding a combined acceptance rate of approximately 34%. The conference accommodated both research papers presenting original investigation results and industrial papers reporting real data mining applications and system development experience. The conference also included three tutorials on key technologies of knowledge discovery and data mining, and one workshop focusing on specific new challenges and emerging issues of knowledge discovery and data mining. The PAKDD 2004 program was further enhanced with keynote speeches by two outstanding researchers in the area of knowledge discovery and data mining: Philip Yu, Manager of Software Tools and Techniques, IBM T.J.

### **From reader reviews:**

#### **Richard Hennessy:**

This book untitled Advances in Knowledge Discovery and Data Mining: 8th Pacific-Asia Conference, PAKDD 2004, Sydney, Australia, May 26-28, 2004, Proceedings (Lecture ... / Lecture Notes in Artificial Intelligence) to be one of several books which best seller in this year, that's because when you read this reserve you can get a lot of benefit into it. You will easily to buy this particular book in the book retailer or you can order it through online. The publisher of this book sells the e-book too. It makes you quickly to read this book, since you can read this book in your Touch screen phone. So there is no reason to you to past this e-book from your list.

#### **Don Numbers:**

Reading a e-book tends to be new life style in this era globalization. With looking at you can get a lot of information that could give you benefit in your life. Together with book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. Plenty of author can inspire their particular reader with their story or their experience. Not only situation that share in the publications. But also they write about the data about something that you need instance. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors on earth always try to improve their expertise in writing, they also doing some exploration before they write to the book. One of them is this Advances in Knowledge Discovery and Data Mining: 8th Pacific-Asia Conference, PAKDD 2004, Sydney, Australia, May 26-28, 2004, Proceedings (Lecture ... / Lecture Notes in Artificial Intelligence).

#### **Michael Marchant:**

People live in this new day of lifestyle always try to and must have the extra time or they will get great deal of stress from both everyday life and work. So , whenever we ask do people have free time, we will say absolutely without a doubt. People is human not just a robot. Then we ask again, what kind of activity are you experiencing when the spare time coming to you of course your answer will unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative within spending your spare time, the book you have read will be Advances in Knowledge Discovery and Data Mining: 8th Pacific-Asia Conference, PAKDD 2004, Sydney, Australia, May 26-28, 2004, Proceedings (Lecture ... / Lecture Notes in Artificial Intelligence).

#### **Mandy Jackson:**

Don't be worry if you are afraid that this book will certainly filled the space in your house, you could have it in e-book means, more simple and reachable. That Advances in Knowledge Discovery and Data Mining: 8th Pacific-Asia Conference, PAKDD 2004, Sydney, Australia, May 26-28, 2004, Proceedings (Lecture ... / Lecture Notes in Artificial Intelligence) can give you a lot of friends because by you investigating this one

book you have matter that they don't and make an individual more like an interesting person. This specific book can be one of a step for you to get success. This e-book offer you information that probably your friend doesn't learn, by knowing more than various other make you to be great individuals. So , why hesitate? Let us have Advances in Knowledge Discovery and Data Mining: 8th Pacific-Asia Conference, PAKDD 2004, Sydney, Australia, May 26-28, 2004, Proceedings (Lecture ... / Lecture Notes in Artificial Intelligence).
